

i3TOUCH ULTRA

21:9 Interactive Display

The i3TOUCH ULTRA is an ultra-wide, 21:9 interactive display. Analyze, visualize, and interact with big data and complex topics, and split the screen to work on multiple tasks. Bring everyone together with immersive video conferencing and presenting capabilities.

105"

Take collaboration to new lengths.

With its ultra-wide 21:9 screen ratio, the i3TOUCH Ultra displays 33% more content than a standard 16:9 display. With the extra space, i3TOUCH ULTRA is better suited to open two, three, or more windows and apps next to each other. Keep your tools close, but not in the way, of your workspace.

Due to the unique aspect ratio and optical bonding technology, ULTRA delivers perfect picture quality in larger spaces no matter where you're sitting. Crowded meeting room or students sitting far away? Everyone will still be able to see the screen without reflections.

ANDROID 13

Free software included.

Our interactive displays are powered by i3STUDIO – our **free, pre-installed** software suite which includes: **whiteboard, annotate, wireless presenting, video conferencing.**

i3STUDIO gives you access to your favorite apps and internet browser with just **one** touch on the intuitive interface. With a state-of-the-art OTA (Over-The-Air) platform, you can be sure your device is always up to date with the latest firmware. All of this is included in i3STUDIO with **free updates, forever.**

Full stack for great performance

i3STUDIO is built on completely new and future-proof technical architecture with improved management capabilities including: notification and messaging system, integrated support, and OTA updates.

Go-to apps at your fingertips

The apps you rely on daily are available on i3STORE. Using the secure environment you can browse, install, update, and keep track of your apps on i3STUDIO. PowerPoint, Word, Zoom, digital signage, and more.

Free lifelong updates

Forever-free automatic updates. No subscription fees, hassle-free updates, and one seamless updating process - all Over-The-Air. You will always use the latest software version even if you bought your device years ago.

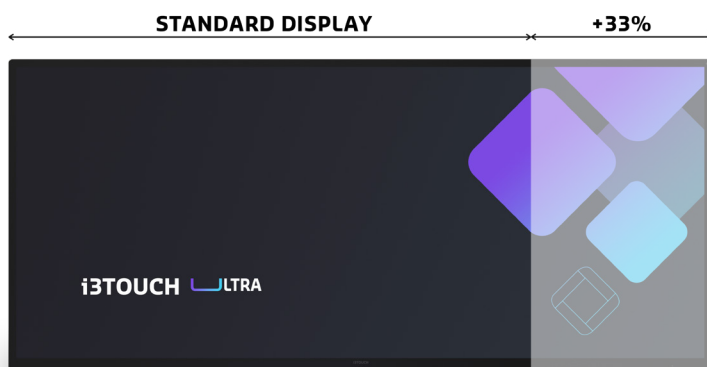

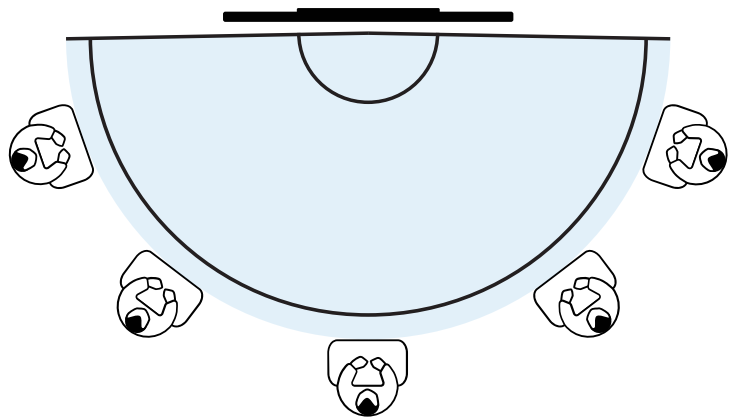

Active participation in meetings.

Promote team engagement by allowing users to share ideas, create content, and interact with it – by whiteboarding, highlighting, and editing. An ultra-wide display means more space for visual collaboration. There's no need to crouch down or overreach to interact with the display (such as in a 16:9 ratio).

Improved contrast and wider angles.

Due to the unique aspect ratio and optical bonding technology, ULTRA delivers perfect picture quality in larger spaces no matter where you're sitting. Crowded meeting room or students sitting far away? Everyone will still be able to see the screen without reflections.

A larger workspace for multitasking.

With its ultra-wide 21:9 screen ratio, the i3TOUCH Ultra displays 33% more content than a standard 16:9 display. With the extra space, you can open two, three, or more windows and apps next to each other. Keep your tools close, but not in the way, of your workspace.

Now bezels don't interfere with your Excel report.

i3TOUCH Ultra comes in handy when you work with Excel files, text and media-rich content, and hyper-detailed drawings or images. Meeting participants can see more information without zooming in and out constantly. Like on any i3TOUCH display, annotate all types of content, save, and share easily.

Efficient for the office and your energy bill.

The eco-friendly design comes with extremely low power consumption, resulting in a beneficial Energy label. The combination of a motion and light sensor will optimize your viewing experience to all lighting conditions and keep energy consumption balanced.

Display features

Capacitive sense

The capacitive touch technology creates a very responsive and natural touch experience with a sleek, stylish design.

Enhanced clarity

Optical Bonding provides many benefits including, enhanced clarity and viewability, ruggedization, improved heat dissipation and the most accurate touch experience.

Ultra-wide

Ultra-wide 21:9 aspect ratio providing ease of use and interactive autonomy on a 105" display

5K resolution

Hyper-detailed image quality and clarity with a 5K resolution and anti-glare glass.

Motion and light sensor

The combination of a motion and light sensor will optimize your viewing experience to all lighting conditions and keep energy consumption balanced.

Strong craftsmanship

The ultra-slim bezel and glossy accents along with the sturdy craftsmanship create a pleasing high-end aesthetic.

Multitasking

Supports split-screen mode allowing you to use two apps at the same time on your i3TOUCH E-ONE.

OPS Slot

Slot for OPS pluggable modules allows for a dedicated computer to be connected to the display with no visible cables.
