Discover the features

## Perfectly intuitive.

The P2 is our next-gen capacitive touch display that was built for top performance in the classroom or meeting room. The advanced touch technology and active pens give the P2 an exceptional writing experience and enhanced interface.

Preloaded with essential interactive tools —such as wireless presenting, instant whiteboarding video conferencing and annotating— and an integrated browser, the i3TOUCH P2 allows the whole room to work and collaborate without limitations.

The specs of the P2 make it a highly responsive interactive display, combined with the active pens, which are ergonomic and pressure-sensitive, help you achieve an immaculate writing experience.

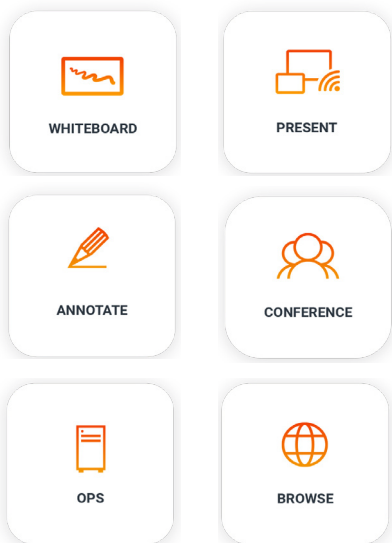

## Free software included.

Our interactive displays are powered by i3STUDIO – our **free, pre-installed** software suite which includes: **whiteboard, annotate, wireless presenting, video conferencing.**

i3STUDIO gives you access to your favorite apps and internet browser with just **one touch** on the intuitive interface. With a state-of-the-art OTA (Over-The-Air) platform, you can be sure your device is always up to date with the latest firmware. All of this is included in i3STUDIO with **free updates, forever.**

## Full stack for great performance

i3STUDIO is built on completely new and future-proof technical architecture with improved management capabilities including: notification and messaging system, integrated support, and OTA updates.

## Go-to apps at your fingertips

The apps you rely on daily are available on i3STORE. Using the secure environment you can browse, install, update, and keep track of your apps on i3STUDIO. PowerPoint, Word, Zoom, digital signage, and more.

## Free lifelong updates

Forever-free automatic updates. No subscription fees, hassle-free updates, and one seamless updating process - all Over-The-Air. You will always use the latest software version even if you bought your device years ago.

# i3TOUCH P2

Discover the features

## Premium design

A natural touch and writing experience are our top priorities. Thanks to the optical bonding and capacitive touch technology we are able to achieve a better than pen-to-paper feeling when writing. With a premium design with edge-to-edge glass and enhanced clarity with razor-sharp imagery and anti-glare glass, the P2 stands out from the rest.

## Faster and more secure

Go straight to the stuff that matters most. Android 13 is optimized for how you use your i3TOUCH P2, which gives you powerful device controls and even easier, faster, and more secure ways to work than ever before.

## Upgraded storage

You can store twice as many documents, presentations, whiteboards, apps and more with the upgraded storage capacity of 128GB on the P2.

## Dual Active Pens.

The ergonomic pens detect different levels of pressure when writing and automatically activate the writing function in Windows ink-supported apps such as Microsoft 365. Customize specific colors to the different pens to make the writing experience more intuitive. Of course, we incorporated pen charger on the back of the display so you never run out of writing power.

## Display features

### Capacitive Touch

The capacitive touch technology creates an incredibly responsive and natural touch experience and a sleek, high-end aesthetic.

### High Quality, Functional Design

We crafted the i3TOUCH P2 from the finest materials. The seamless, edge-to-edge glass along with the sturdy craftsmanship create a pleasing aesthetic.

### Adaptive Intelligence

The combination of a motion and light sensor will optimize your viewing experience to all lighting conditions and keep energy consumption balanced.

### More Processing Power

Go straight to the stuff that matters most. Android 13, 8GB of RAM and 128GB ROM, are optimized for how you use your i3TOUCH, which gives you powerful device controls and easier ways to work and teach.

### Better than pen-to-paper

A natural touch and writing experience are our top priorities. Thanks to optical bonding technology we are able to achieve a better than pen-to-paper feeling.

### Dual Active Pens

The ergonomic pens detect different levels of pressure and automatically activate the writing function in Windows ink supported apps such as Microsoft 365.

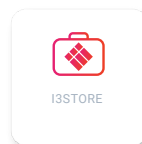

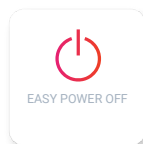

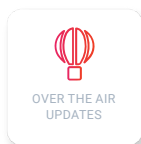

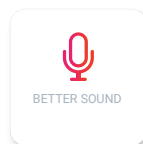

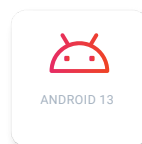

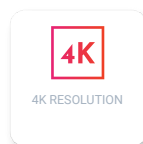

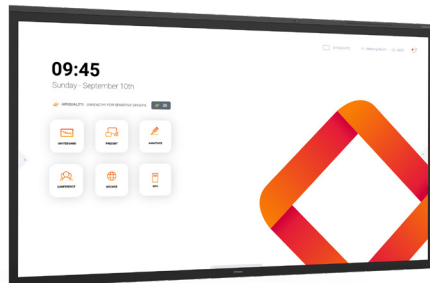

### Pen Charging Station

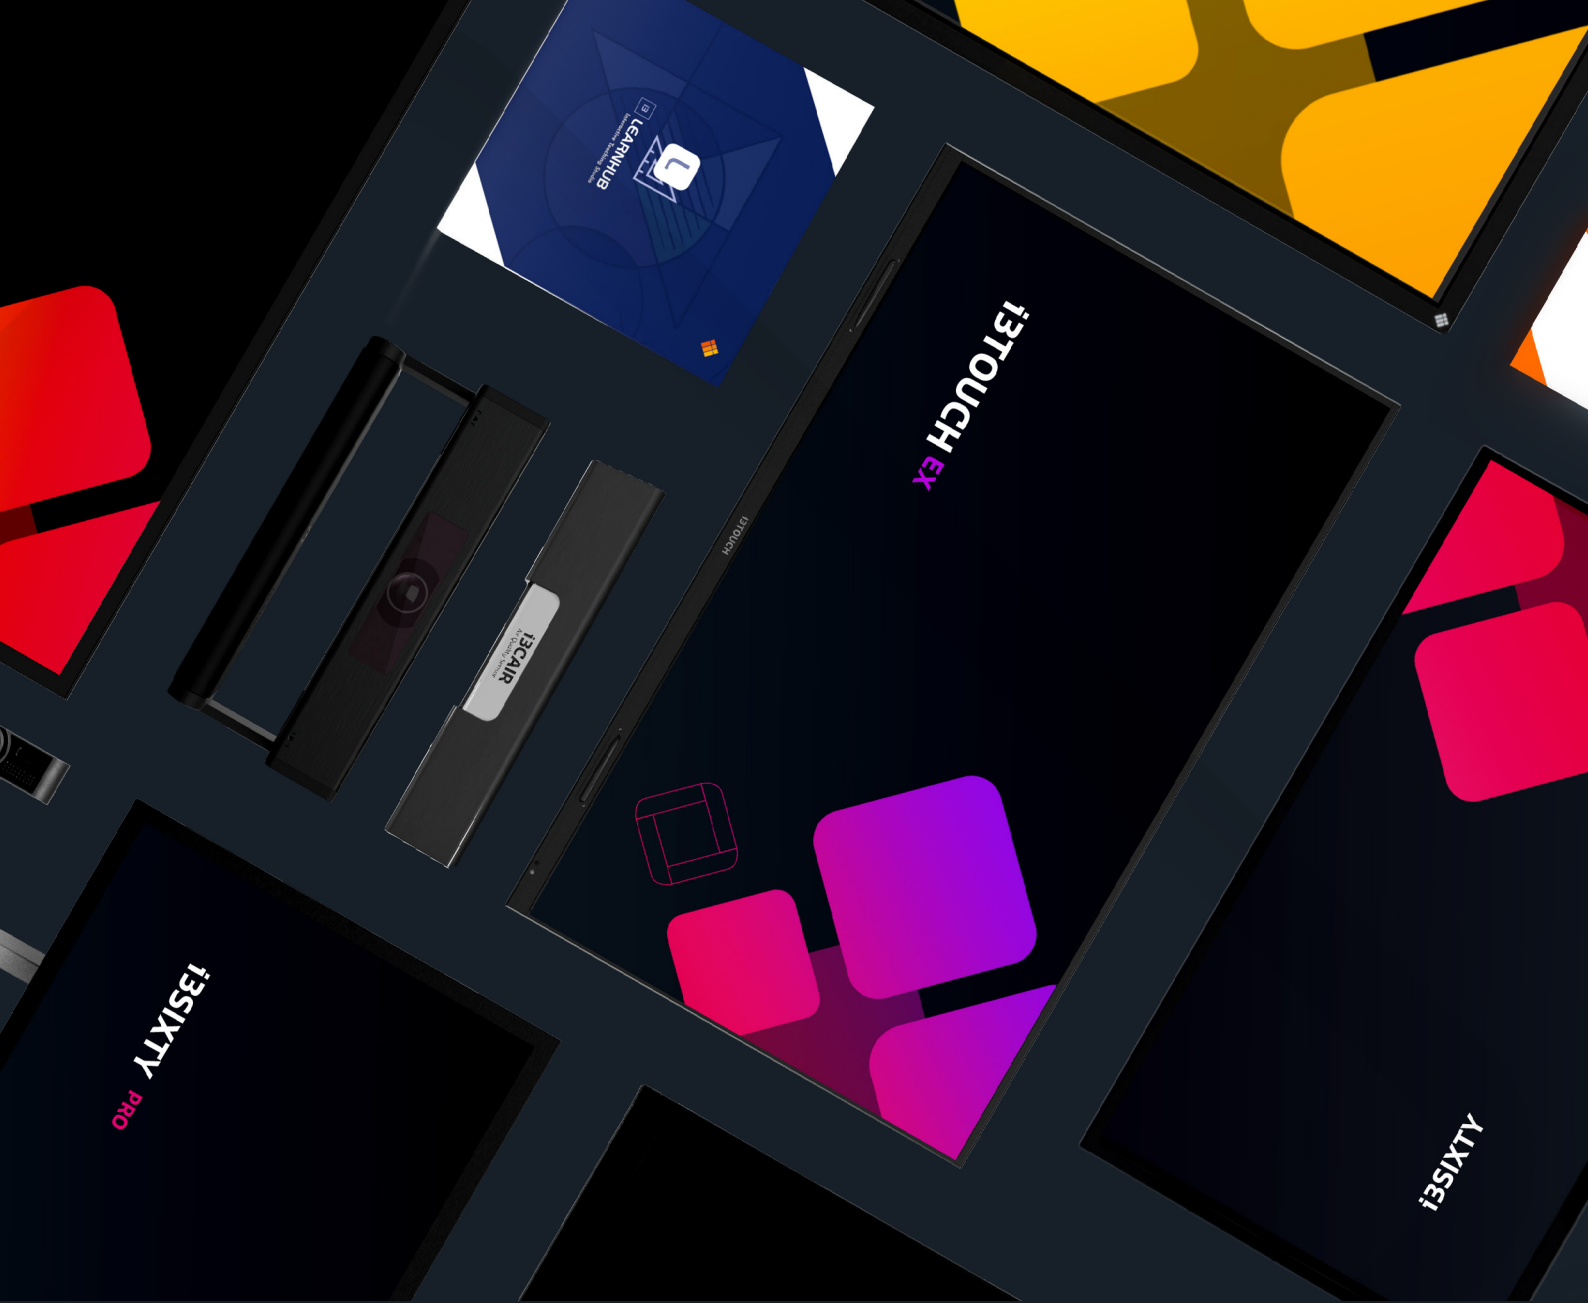

Always have a fully charged pen thanks to the integrated charging station, which also serves as a convenient place to store your pen.

### Faster Charging

Use the interactive display as an extension of your laptop with a USB-C cable. Just one cable for audio, video, power, and touch. With the supported charging feature (100W) your laptop will never run out of battery.
