## Guaranteed Compatibility

Since OPS manufacturers can change the specifications of their units without notice and the fact that those specs can have regional differences, i3-Technologies cannot provide any recommendations about compatibility of i3TOUCH units with third-party OPS solutions.

i3-Technologies can also not make suggestions about compatibility between older and newer generations of the i3COMPUTER OPS and i3TOUCH. We recommend you follow the recommendations of the i3-Technologies company and its representatives or one of our accredited resellers.
