CO-LAB Suite OPS

Where teams Collaborate.
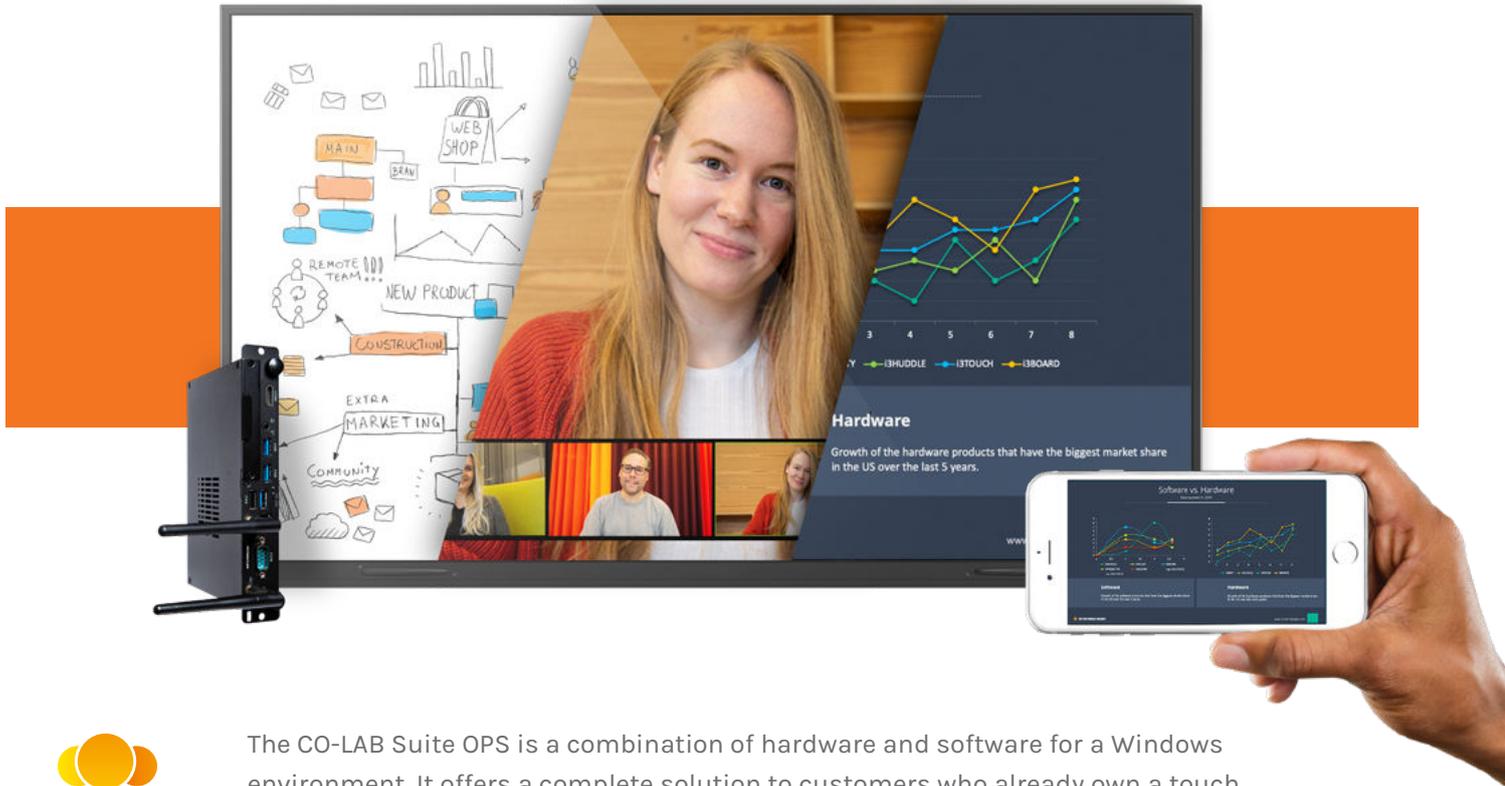

CO-LAB SUITE

The CO-LAB Suite OPS is a combination of hardware and software for a Windows environment. It offers a complete solution to customers who already own a touch display but want to benefit from i3's software to create the ultimate collaborative experience on their existing hardware.

Included: Co-Lab suite user interface with configurable Conferencing, Whiteboard, Present and Co-Create button, Annotate software, floating home button and other widgets.

Whiteboard
Classic whiteboard.
Save your notes, share them.

Present
Don't waste time hunting for the right cable, resolution or driver. Present your content wirelessly from any device.

Conferencing
Use any type of video conferencing software. CO-LAB Suite comes standard preinstalled with Zoom & Skype

Launcher
Control all your apps from an intuitive customizable launcher.

Annotate
Annotate over any screen and share it right away.

Windows 10
